1. Upon review of the elected claims it has been determined that further restriction is necessary. Applicant's previous election is noted below.

2. Applicant's election with traverse of Group I in Paper No. 5 is acknowledged. The traversal is on the ground(s) that amended claim 8 is not a separate invention since it is dependent on claim 1. This is not found persuasive because claim 8 remains directed to a product and thus is properly restricted from claim 1.

The requirement is still deemed proper and is therefore made FINAL.

3. Claim 8 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 5.

4. The new restriction requirement is as follows:

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Ia. Claims 1-6, drawn to a method, classified in class 264, subclass 138.

Ib. Claim 7, drawn to an apparatus, classified in class 425, subclass 90.

The inventions are distinct, each from the other because of the following reasons:

6. Inventions Group Ia and Group Ib are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be

Art Unit: 1731

practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by hand.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher A. Fiorilla whose telephone number is 703-308-0674. The examiner can normally be reached on M-F, 6:30am-3:00pm.
